MEPCO Introduces New Universal Valve Handle Repair Kit

June 1, 2012

Grand Rapids, Michigan – MEPCO is pleased to announce we have designed a new universal valve handle repair kit. The MEPCO Universal Valve Handle Repair Kit will fit all major brands of valves. It has a solid brass body, a Bakelite handle, is corrosive resistant, has a carbon steel insert and hardened steel set screws. Remember the “bargain” brands can melt or strip out but the MEPCO handle will last for years.

Attached you will find a new cut sheet. The cut sheet will also be available on our website. You can place your orders immediately. As always if you have any questions, please contact customer service.
