## **MEPCO Offers Expanded Line of Inverted Bucket Traps**

June 15, 2010

**Grand Rapids, MI** – MEPCO announced today the launch of an *expanded* and *complete* line of Inverted Bucket (IB) traps. The new Inverted Bucket traps have the same construction, design, and performance features as our previous line of IB traps but offer much greater sizing and capacity options. Please note that MEPCO will continue to support the previous line of Inverted Buckets for parts and related and has a limited number of parts in stock.

Specifications and product information is now available on our website. Just go to our homepage at [www.mepcollc.com](http://www.mepcollc.com) and click on the Literature box in the menu at the top. We are excited about the new line and that you can now match up directly with Armstrong Inverted Bucket traps.

You are welcome to place your orders immediately. As always if you have any questions, please contact customer service.

Thank you!
